New Maya Turf Type Bermudagrass

Officially Inducted Into An Elite Group Of Bermudagrass Varieties

The final results of the 2012 NTEP bermudagrass trials are in and Maya was ranked at the top with the best of them. In fact there was not one seeded variety, either commercially available or experimental, that had a significant difference in turf quality. What makes Maya so special is its price. Finally a top rated seeded turf type bermudagrass that everyone can afford.
