

KENTUCKY BLUEGRASS

BLUE DEVIL exhibits similar traits to all of the sub-compact midnight type family of varieties. Current data shows BLUE DEVIL excels in this area and produces elite quality turf.

BLUE DEVIL has strong overall disease resistance. It's ability to perform well under traffic and accept a 1/2" cut makes BLUE DEVIL a superior product for golf courses, sod production, sports fields, and residential properties.

Currently BLUE DEVIL is sold in the United States and China. It is sold as PRAFIN in the EU.

Performance of Kentucky Bluegrass Cultivars
